Afternoon Sean.

On September 6th DEQ sent our draft comments to EPA on the work plan referenced above. As Sarah let you know, we are going to follow-up the draft with a final version.

I understand that you're planning to route EPA's draft comments on the work plan this week. In the interest of coordinating, I wanted to let you know that we'll provide our final work plan comments along with any comments we have on EPA's draft.

Thanks for the opportunity to review comments on the work plan and hope the rest of your day goes well.

Dana
